OUR PRIDE.

With over 12.000 resellers in Europe and offering more than 40 brands, we are growing strongly.

Our platform

We offer a user-friendly platform with a complete package for the set-up of the digital workplace, constantly responding to the rapidly evolving market. With a short, uniform ordering and management process within one environment, we make the platform experience as easy as possible. This reduces routine work and allows our partners to focus on their core business.

Our service

Our local, certified team of sales and support specialists has extensive knowledge and expertise of the full portfolio. We are happy to speak with you in your language and help you in all phases of the customer lifecycle. Thanks to our personal approach and commitment, we know the individual needs of our partners so that we can offer them a high-quality service.

Our education

Through our close cooperation with leading software brands and experts, we give our partners access to exclusive training courses, such as DSD Cloud Academies, webinars and certification days. We also provide our partners with up-to-date knowledge and information through other educational resources, including white papers, fact sheets and podcasts. With these, we provide all the tools they need to provide their end customers with the best service.

DSD and Microsoft: a golden combination! Through the DSD platform we offer our clients a wide range of Microsoft solutions and cloud services. Order 24/7 with instant, fully digital delivery.
